Why Don't You Own Your Home?

If you don't own your home you should be heeding the government's advice. The government has spent millions of dollars in advertising the past year, educating our citizens to save money and invest it wisely. They are now opening a "OWN YOUR HOME CAMPAIGN" that will cost millions more, telling you to invest those savings in a home and explaining to you the many reasons therefor.

The success or failure of this campaign, insofar as you individually are concerned, can be determined by two things, viz: You act immediately and buy a home or you continue to pay rent.

Own Your Own Home

Arguments and flowery speeches should not be necessary to secure your attention to a matter so important as this—OWN YOUR HOME. Deep in the heart of every normal man, woman and child is an instinctive longing for home and all that the word implies. Sometimes the person does not even know what this longing is, but a day comes to everyone sooner or later when mere shelter does not satisfy and a sense of possession is necessary to maintain that loyal cooperation between husband and wife which is so essential to the permanency of every home.

Reddin's Addition

To take advantage of this offer you will have to act quick as we will positively raise the price \$100 per lot on any lots not sold by June 1st.

We can also offer you an attractive bargain in one of three bungalows in this addition that are nearing completion. Ask our salesman to show them to you.
